1.Subcon China 2011 in June, 2011 in Chongqing

Subcon China, initiated in 2005 and authorized by Ministry of Commerce of P.R. China, is the most important industrial subcontracting fair supported by the global industrial subcontracting network of UNIDO in China.

Subcon China 2010 covered 5000 m² with total 246 exhibitors. Total 10,612 trade visitors visited the exhibition, among whom 58 were pre-registered domestic and overseas buyers. They released over

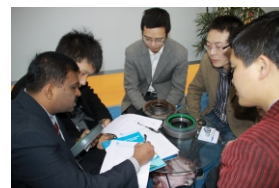

80 purchasing orders with detailed product drawings, more than 300 enquires in investment, cooperation, and the purchasing value exceeded US\$100 million.

Subcon China 2011 will be held on June 6-9, 2011 in Chongqing with the aim of strengthening the mutual understanding between buyers and suppliers. It will provide effective and professional services including subcontracting, technology transfer, investment promotion and sales network sharing for the manufacturers and service providers of equipments, components, parts in the field of mechanical manufacturing---metal processing and plastic processing. Subcon China always concentrates on the sectors with vast market prospects and strong production capabilities.

Subcon China 2011 Highlights:

“Interactive Fair” ---In the normal exhibition usually only the exhibitors have stands waiting passively for the visitors. In the interactive fair, the buyer also has a booth so that the exhibitors can initiate the visit to the important buyer, hence increase the selection opportunities of buyers and the efficiency of the fair.

“Precise Match-making” ---The organizer will recommend at least three potential partners for the participants according to their requirements before the fair. Of course, participants, either exhibitors or visitors, can choose their partners with the help of SPX-CQ's database before the exhibition by themselves. The software developed by SPX-CQ can automatically set up and print out the personalized meeting schedule for each participant so that at the given time, they can meet each other for further negotiation.

2.CIMAMotor 2011 in October, 2011 in Chongqing

The 10th China International Motorcycle Trade Exhibition (hereafter refers as CIMAMotor 2011), the largest motorcycle exhibition in Asia in 2011, will be held on October 13-16, 2011 in Chongqing, China.

CIMAMotor has been held annually since 2002, and has become the world largest and the most important event for commuter motorcycles after 9-year continuous development.

The output and sales of Chinese motorcycles, accounting over 50% of the world, has been registering world No.1 for 17 consecutive years, and the export of

motorcycles also hit the record of world No.1 for 10 consecutive years. In China, over 99% motorcycles are used as commuting tool, while the exported ones are mostly found in the 3rd world countries. The position and industrial situation of Chinese motorcycles ensure CIMAMotor as the most important international platform for brand displaying, product trade, technology transfer and information releasing, and the preferred show for manufacturers and buyers of commuter motorcycles.

CIMAMotor 2010 covered the space of 60,000 m² with 386 exhibitors, including 362 domestic ones representing 90% of the production capacity of China motorcycle industry, and 24 overseas exhibitors. The exhibition attracted the participation of more than 70,120 visitors, among whom 21,736 were trade visitors. About 1000 global media were involved in the exhibition report, 278 giving the report on site.

600 exhibitors and 100,000 visitors are expected to attend CIMAMotor 2011. The exhibition space will reach 80,000m².

3.TEDA Business Match-making Meeting in April, 2011 in Tianjin

With the aim to promote the presence of Tianjin enterprises in global market, Trade Promotion Centre of Tianjin Economic-Technological Development Area (hereafter refers as the TPC) is going to host “TPC Business Match-making Meeting” in April 26, 2011 in Tianjin. SPX-CQ is entrusted to assist in inviting buyers to the meeting, while TPC will organize Tianjin suppliers to meet face to face with buyers.

Based on supplier list provided by TPC, and careful analysis about the sectors, company situation, target buyers of Tianjin enterprises, SPX-CQ has set up buyer selection criteria, and match-making procedures. By screening the buyers from its database, SPX-CQ is getting in touch with selected buyers by E-mail and telephone to invite them to the match-making meeting.

Up to now, 12 buyers have expressed their wish to attend the match-making meeting, and some of them are delivering their RFQs to SPX-CQ. With the guidance of its work procedures, SPX-CQ is engaged in matching buyers with suppliers.

Buyer invitation is still in process. If you are interested in the meeting, please send us your demands, especially the purchasing demands for products of automotives, machineries & equipments, electronics, medical devices, telecommunications, and etc.

For more information, please contact SPX-CQ at:
